Artifik - Digital Procurement Platform (KGV & KAV)

Jan 2021 – Present

- Spearheaded the evolution of the next-gen **KGV and KAV platform** from a single-page prototype to solutions used by **1,000+ organisations**.
- Delivered **600+ features** and **1,800+ bug fixes** across **67+ production releases** and **82+ sprints**, taking the product from **v1.0 to v3.40**.
- Led a **15-member engineering team**, acting as the bridge between product, engineering and customer success.
- Serve as **Release Manager** with final production **go/no-go authority**, owning incident management and SLAs to keep rollouts stable.
- Helped scale the platform past **10M NOK ARR**, supporting wins in major **Norwegian public procurement competitions**.
- Directed product planning, backlog prioritisation and sprint logistics. Built prototypes and contributed code hands-on using **AI tools (Claude Code)**.

Inspira - Assessment Data Analytics Engine

Aug 2021 – Jun 2024

- Led delivery across the full lifecycle of a **custom data analytics engine** used by large-scale higher-education institutions to decode student assessments.
- Planned and ran sprints in Jira, resolving most **hotfixes within 24 hours**, keeping **sprint spillover below 20%**, and maintaining **zero SLA violations** throughout the engagement.
- Managed a team of **18+ data engineers** and led **UAT** by defining test scopes and test cases in Zephyr.

Prevale - Accounting & Compliance SaaS (Co-Founder)

May 2022 – Apr 2025

- Co-founded, with a chartered accountant and Comono Norway's team, a SaaS platform connecting accountants, admin staff and business owners through collaborative compliance workflows. Shipped **4 versions** and served **15+ B2B clients**.
- Interviewed **600+ founders** to validate the problem, repositioning the product from a Tally data-export tool into a **three-sided task-management platform**.
- Led product iterations and roadmap decisions, including a **customisable workflow builder** that let accountants design their own processes. Executed a pivot that raised **client satisfaction scores by 200%**.
- Built and coordinated a **10-member team (7 engineers)**, and led marketing and business operations.
- Paused operations in May 2025, when serving accountants' and clients' conflicting needs would have required funding beyond available resources.
